

#### FORMULATION:

This can contains 500 ml of solution.  
Pyriproxyfen CAS 95737-68-1 .....0.02 % w/w  
Permethrin CAS 52645-53-1 .....0.83 % w/w  
Piperonyl butoxide CAS 51-03-6 .....1.76 % w/w  
Chrysanthemum cinerariaefolium (CAS n°89997-63-7)  
0.1 % w/w  
Propellant: CO<sub>2</sub>

#### DESCRIPTION:

INDOREX DEFENCE SPRAY contains a combination of 4 ingredients: pyriproxyfen, permethrin, piperonyl butoxide and chrysanthemum cinerariaefolium. Permethrin is an insecticide which effectively and quickly kills adult fleas present in a pets' environment. Piperonyl butoxide is a synergist that reinforces the activity of permethrin. Pyriproxyfen is a long-acting Insect Growth Regulator that prevents flea eggs and larvae from developing into adults. This breaks the flea-life cycle and provides a continuous protection for up to 12 months when used as directed and eliminates adults for 2 months. INDOREX DEFENCE SPRAY provides total control of house dust mites. INDOREX DEFENCE SPRAY represents a modern method to combat flea infestations. It is a necessary complement to the direct treatment of pets with an appropriate insecticide.

#### INDICATIONS FOR USE:

INSECTICIDE FOR AMATEUR USE FOR THE CONTROL OF FLEAS AND DUST MITES. FOR USE IN DOMESTIC PREMISES ON HARD POROUS AND NON-POROUS SURFACES, HARD AND SOFT FURNISHINGS AND PETS' BEDDING AS A BROADCAST AND CRACK AND CREVICE TREATMENT.

#### DIRECTIONS FOR USE:

**SURFACE SPRAY.** Shake well before use. Remove pets but ensure pets' bedding is treated. Remove birds and fish aquaria. Hold the container vertically downwards at about 50 cm from the surfaces to be treated. Use INDOREX DEFENCE SPRAY by spraying directly on (and if possible under) carpets and rugs, blankets, tiles, skirting boards, paying particular attention to cracks and crevices. A five-second burst will treat approximately 1 square metre (the discharge rate is 1.25 g per second, which is equivalent to 59 mg permethrin and 1.26 mg pyriproxyfen per square metre). Ventilate the room after use. INDOREX DEFENCE SPRAY does not normally stain but test on an inconspicuous area of fabric prior to use, avoid wetting furniture and carpets and do not over-apply to polished wood surfaces.

#### OTHER PRECAUTIONS:

WASH HANDS AND EXPOSED SKIN before meals and after use. KEEP IN A SAFE PLACE. DO NOT HANDLE TREATED FABRICS UNTIL DRY AND AIR THOROUGHLY BEFORE USE. UNTIL DRY, TREATED SURFACES CAN POSE A FIRE RISK. To avoid risks to man and the environment, comply with the instructions for use. Contains PERMETHRIN (ISO). May produce an allergic reaction.

This product is approved under The Control of Pesticides Regulations 1986 for use as directed. HSE No. 10590  
Use only in accordance with the directions on the label.
